Logan has always wanted to help people which is why he began his career by entering a bank management trainee program upon graduation. While there, he had the opportunity to work in every department in order to hone his experience before settling into lending.

Logan has experience in all types of loans including consumer, agriculture and commercial, but specializes in farm real estate, cow/calf lending, crop, stocker cattle operations, custom harvesting/baling, trucking, and commercial real estate.

Logan will be located at the Elgin location and is looking forward to being involved with the Chamber of Commerce, local sports, FFA chapters, and other community-oriented activities.

After attending high school in Lawton, Logan went on to obtain his Bachelor's Degree in Agricultural Business from Oklahoma State University. He is also a graduate of the OBA Consumer Lending School, Commercial Lending School, and the Kansas/Nebraska Banker's Association for Agricultural Lending. In addition, he has also attended a variety of OBA ag lending workshops and conferences, as well as OSU Rural Outlook conferences.
